## **Abstract**

This is the abstract

If you keep it in the indented block shizzle will work I hope that new lines also work correctly.

A new paragraph.

Not sure about it being centered, I will have a think about that, possibly move so it's got a bit more space at the top than the usual stuff.

## **Dedication**

We also like to add a dedicaaion Like the abstract anything in the block wll be kept

Would lke to thank my parents, god, the family cat / dog. Obviously Dan because he is awesome

Again, not sure about the layout, but we can fix that.

# 1 Introudciton

Should be a new tempalte for project reports

Looks like my eisvogel is from 2021

- Was Version 2.0 2021-01-31
- Version 2.4.2 is the latest 2023-11-25

## 1.1 building the Fiecking tbing

```
1 pandoc Readme.md -o example.pdf --from markdown --template eisvogel --  
listings --citeproc
```

## 1.2 References and Citations

Check If citproc works correcty.

The report is created using pandoc (MacFarlane et al., n.d.) Which is a pretty nice system. Hopefully I have resolved the Latex (Knuth & Bibby, 1986) issues around bibliography export.

## **2 A Second Chapter**

We can have more text for our chapters here. As long as cheperts are Level 1 headings we are cool

### **2.1 Sub section**

A Subsection within a chapter.

After forcing a newpage do we get header and footer
